

# *A world of complex plastic forming...*

## CRS company info

C.R. STEGLICH & CO. A/S is a 100% Danish owned company.

The company was established in 1973, and we have continuously updated our production in step with the technological development.

Today C.R. STEGLICH & CO. A/S has a large export to most corners of the world, both directly and indirectly.

C.R. STEGLICH & CO. A/S is a versatile thermoforming company, and we develop, form and produce all types of thermoplastic items.

Our equipment for production and finishing is state-of-the art technology with CNC-controlled coordinate tables for milling, drilling and welding.

C.R. STEGLICH & CO. A/S designs and manufactures their production moulds and auxiliary tools. We carry out bending, forming, ultrasonic and hot welding, and we are suppliers to several leading companies world-wide of products ranging from plastic cabinets, machine components, lights fittings to tubs and transport boxes.
